

My name is Paul Tomei, Global Recruiter with Intel Corporation. I wanted to let you know that Intel is currently investing \$1 billion USD to build a semiconductor assembly and test facility in Ho Chi Minh City, Vietnam! This represents the first such investment by the semiconductor industry in Vietnam and supports Intel's strategy to invest and support overall demand.

Intel would like to hire *Recent College Graduates* (graduated in the last 18 months) who are from Vietnam and would consider returning to Vietnam for an exciting opportunity with Intel.

Some of the exciting positions in this Start-Up include:

- ❖ **Product Engineering**
- ❖ **Test Engineering**
- ❖ **Quality & Reliability**
- ❖ **Failure Analysis**
- ❖ **IC Assembly Engineers**
- ❖ **Equipment Engineers**
- ❖ **Automation Engineers**
- ❖ **Industrial Engineers (Planning, Production Control)**
- ❖ **Manufacturing (all shifts)**
- ❖ **Supply Chain**
- ❖ **Business Analyst**
- ❖ **Finance**

These positions require degrees in:

- | | |
|-------------------------------|--------------------------------|
| Electrical Engineering | Computer Engineering |
| Computer Science | Mechanical Engineering |
| Automation | Industrial Engineering |
| Chemical Engineering | Chemistry |
| Material Science | Supply Chain/Operations |
| Management | Finance |

To be considered for these opportunities please forward your resume to paul.tomei@intel.com
